**Instruction for use of parts catalogue**

- **This parts catalogue was prepared based on the latest information available as of April 10, 2014.**
- See the parts catalogue news for any revision that is made after April 10, 2014.
- **Always specify the part number when ordering a part.**
- Check the model, type, serial numbers, color, maker, and the size as needed before ordering a part.
- Note that the illustrations (part drawings) can differ from the actual parts in shape. They are given just to help you to refer to the parts.
- **When modifications or additions to this parts catalogue are made, a revised edition will be issued at an appropriate time, with successively progressing revision numbers on the cover. We recommend obtaining such revisions in order to keep your parts catalogue up-to-date at all times. To check whether a parts catalogue revision has been issued, please contact your Honda distributor.**

Initial version issue date April 10, 2012

- ① **Address number**
  - Address No. is provided (in place of the page No.) to help you refer to the part with the part No. or part name.
- ② **Block title** ③ **Block number**
- ④ **Service item/Flat rate time**
- ⑤ **Reference number**
  - Title number marked with the parenthesis or parentheses indicates that it continues from the previous page.
- ⑥ **Part number** ⑦ **Honda color code**
- ⑧ **Description**
- ⑨ **Assemblies**
  - Sections framed with broken lines in the exploded view drawings are available as complete assemblies. (Their individual parts can also be obtained.)
- ⑩ **Color description**
- ⑪ **Note**
  - Notes are shown with the parentheses in the part name column.
- ⑫ **Required quantity**
  - Required QTY shown in the parenthesis or parentheses indicates the optional part.
  - Required QTY marked with "N" Indicates the optional part that should be selected as needed.
  - Required QTY indicates the number of the part used in the block.
- ⑬ **Serial number**
- ⑭ **Type**
  - When the type column is blank, it indicates that the part is applicable to all types.
  - As the type of the actual unit may differ from the "parts catalogue, type" please refer to "Models, types and applicable serial numbers" for confirmation.
- ⑮ **[Dotted box]**
  - Parts enclosed within a dotted line [ ] are covered in a different block.
- ⑯ **[Hollow arrow]**
  - A hollow arrow [ ] indicates the block No. for the parts enclosed within a dotted line [ ] .
- ⑰ **[Solid arrow]**
  - A solid arrow [ ] indicates the block No. the part in question is connected to.

## Fuel hose, general purpose hoses and vinyl hose

- The standard part fuel hose, general purpose hose and vinyl hose may be substituted by the coiled bulk part.
- When ordering the standard part fuel hose, general purpose hose and vinyl hose use the bulk part number written in the parts catalog in brackets ( ) underneath the part name.
- When exchanging the hose, cut and use at the specified length as mentioned in the part name.  
(For the method of cutting the bulk part, and method of filling out orders etc., please refer to the instructions issued with the bulk part.)

### Bulk part number of fuel hose, general purpose hose and vinyl hose.

Example: 9 5 0 0 1 - 7 5 0 0 1 - 5 0 M

**Bulk part number:**  
Refers to the bulk part.

**Marking code (fuel hose and general purpose hose)**

**Change code (Vinyl hose)**

Indicates number mark or change sequence, however, the code for the bulk part must be strictly 0 (zero).

**Types of code:**

**Hose type:**

- 1: Fuel hose  
3: Vinyl hose  
5: General hose

⊙ **CAUTION: It is DANGEROUS to confuse the fuel hose with the general purpose hose or vinyl hose.**

Never use a general purpose hose or vinyl hose in place of a fuel hose or vice versa. Always use the correct bulk part in the parts catalogue, according to the service manual or the instructions issued with the bulk part.

## FLAT RATE SERVICE TIME

Flat rate service time (FRT) means the standard time required to service a product, which is listed in this manual to help the dealers control the actual working process and calculate the service charge by using it as a guide.

### FRT setting system

\* Float time is set by multiplying the net service time by a given coefficient.

### Editorial style

The service items shown in the text are listed with the exchange work time for the repair sales parts as the subject. Other representative service items not using repair parts (removal/installation, adjustment, inspection/measuring, and other work) are listed collectively in the list in the preface, classified according to the work.

### FRT setting standard

- Decimal system (in unit of 0.1) is adopted to set FRT as it is convenient to calculate the wage.  
Example: (0.1) → 6 minutes, (0.2) → 12 minutes  
[Labor cost per hour] x [FRT] = [Wage]
- FRT is set with a hand tool.
- Service items and FRT can be subject to change depending on development of tools and service equipment and improvement in service procedure.

**Work procedure**

- As the work procedure is set with the work time according to the method in the separate Service Manual, refer to this Manual as required.
- Work methods permitting servicing in the shortest time still permitting assurance of safe work and product warranty are used for the setting of service items not listed in the Service Manual.
- Work basically is to be performed by one person, and when two or more people are required, setting is done as the total time for the number of people.
- The set value for the technological level of the workers uses a person with three years of experience in the repair of Honda products as the standard.
- Special tools and service equipment used to set FRT are those specified or recommended in Service Manual.

**Service item whose FRT is not presented**

- Accessories and service parts that are not listed to use in this manual.
  - Locations with little aging deterioration or breakage during normal use.
  - Service work that can be finished by one touch.
  - Service work that is seldom done (i.e. extremely small causes of trouble and service frequency).
  - Products and parts whose location for installation differs according to its status of use and application.
- \* When FRT is not presented, please calculate wages based on appropriate actual work time.

**Operation not included of FRT**

- Oil and coolant water draining, Waiting time for warming up operation and etc..
- Additional operation that involves removal/installation of standard exterior equipment.
- Indirect time spent for service by visiting the customer, trade-in, and delivery.
- Indirect time required for ordering and delivery of parts.
- Cost for grease, adhesive agent, etc. used for service work.

**Explanation of FRT by using an example  
(The example may differ from the actual presented items)**

③	1111L1A	• Includes: Engine removal and installation One head (intake all) add .....1.4	④

- ① Reference No. of the illustration of part that shows location of the replacement work.
- ② FRT is an abbreviation of Flat Rate Time indicating the standard service time required for the replacement.
- ③ LON is an abbreviation of Labor Operation Number, and it is a classification of the service items by the work unit code.

The same operation code is used regardless of the models.

Standard operation is indicated with 6 digits code, and additional operation is indicated with 7 digits code.

- ④ Indicating the intake valve replacement and FRT4.1.
- ⑤ Indicating FRT1.4 that will be added when additional operation (whole intake side of one cylinder head) is done in association with intake valve replacement.

- ⑥ Indicating work condition or application condition of the service item.
- ⑦ Indicating work contents that are included in the service item.
- ⑧ Indicating a reference No. whose operation and time are the same as FRT4.1 for the intake valve.

(The application range is limited to the service items without an LON setting within a same block.)

**How to refer to the service item by using the sample  
(intake valve replacement)**

Open to the page of the block where the intake valve's spare part illustration is shown.

Look for the intake valve illustration, and refer to the service item and FRT that agree with the reference No.
